

SolOrient

simplifying solutions for
Local Government

Design, Knowledge, Service

CONNECTING YOUR BUSINESS TO THE TECHNOLOGY RESOURCES YOU NEED

We have been serving Corporate Businesses since 2006 specialising in corporate solutions. Our staff offer quality and reliable software solutions you can count on. In addition, our friendly and professional staff are here to answer any questions you may have about our company or our services.

Whether you need data management, technical support or change management solutions, we have what you need.

Our goal is to provide you with courteous, expedient, professional service of the highest calibre.

CONSULTING

Our consultants have many years of experience working in both corporate and government organisations. Particularly in Land Rating, Debtors, Creditors, Electronic Document Management, Applications and Database Administration functions. SolOrient methodology enables the application of information management and knowledge systems to enhance organisational performance.

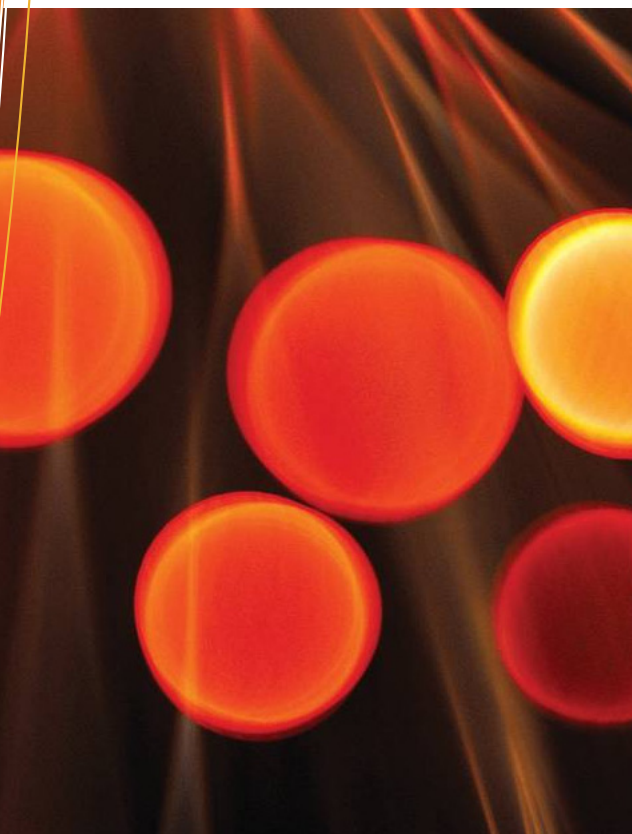

EXPERIENCE

With a number of years collective experience in information Technology, SolOrient provide a wide range of services that address many aspects of business. The SolOrient team has over 90 years combined experience in local government and corporate systems, enterprise software development, project management, ecommerce, support and training.

Our staff bring a wealth of experience in the Australian IT industry in a number of senior roles in the application solution environment. We have a wide range of business analysis skills covering financials, payroll and human resources, revenue, land information systems, billing, ecommerce, knowledge and document management, and asset management.

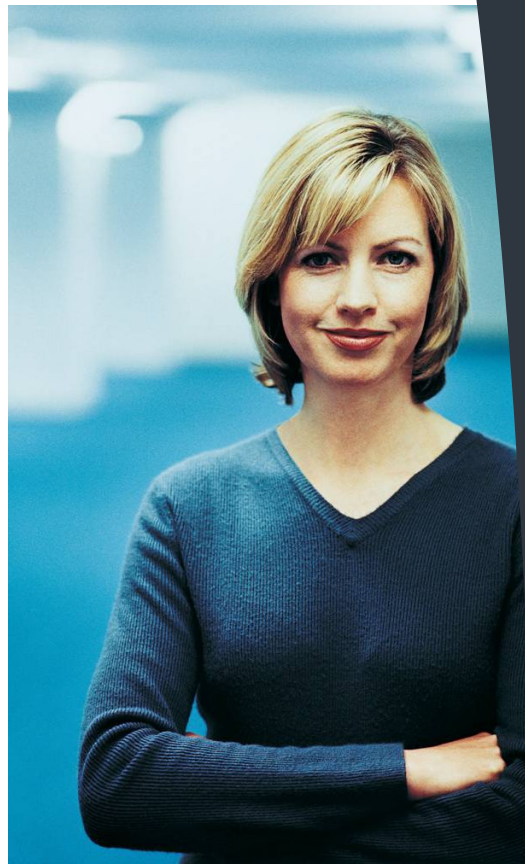

LEADERSHIP AND TEAMWORK

You will receive the kind of quality and service you expect from a leader. Our company is continually evolving as the needs of our customers change and as new opportunities are created in the market. You can rest assured that, working with SolOrient, you will enjoy the latest services, technology and developments in the industry.

SOFTWARE SOLUTIONS

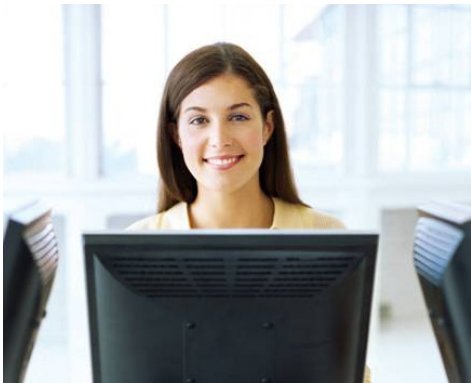

SolOrient has experience in Document Automation in MS Word, and Corporate Database design solutions to meet the needs for today's business.

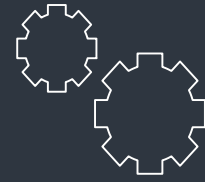

TECHNOLOGY CONSULTING PROVIDES A TOTAL END TO END SOLUTION.

TEAM SKILLS

Our developers have been developing enterprise software in the government, retail and telecommunications sectors and bring experience with development methodologies and processes ranging from traditional development models to agile development. Their skills include – Java, C , C++, MySql, Microsoft VB/VBA.

Our business analysts have consulted to a number of clients in Federal, State and Local Government, publicly listed companies and private companies. These include the NSW Attorney Generals Department, Harvey Norman, Department of Foreign Affairs and Trade, Publishing and Broadcasting Ltd and Towers Perrin. They are sought out for their skills in requirements gathering, functional design / specification, and data modelling. Each are degree qualified and are recognised as Practising Computer Professionals (PCP's) by the Australian Computer Society.

LOCAL GOVERNMENT SOLUTIONS

Built on top of proven, open source technologies **Horizon** is a powerful solution that provides flexibility in the management of documents and corporate register data. It provides a single entry enquiry/search form that will display any register type in a browse form that can then be selected to drill down further into related data elements.

WEB SOLUTIONS

Using modern, standards-based language and programming model that supports common design patterns providing solutions that deploy consistently on all major browsers, desktops, and operating systems.

EBUSINESS SOLUTIONS

Powerful corporate software solutions that meet the needs of today's business and can be used as intranet, internet or extranet applications.

CONSULTING SALES STAFFING SUPPORT

Solutions that go beyond application software. In conjunction with our business partners, SolOrient facilitates a total managed offering to take away the worry from your organisation.

Communications, infrastructure, desktops, in-house, or 'in the cloud' offerings, office products, business systems improvement, strategic planning, business continuity, enterprise solutions, organisational staff - SolOrient can manage a total solution to meet your needs.

SolOrient has successfully operated in collaborative environments for a number of years providing services to local government that leverages the expertise of each party. Collaboration delivers quality services to Council by each organisation being able to deliver what they do best.
